If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard. - 5** The hose contains electrical wires. DO NOT use when damaged, cut, or punctured.
- 6** DO NOT pull or carry vacuum cleaner by the cord or use the cord as a handle.
- 7** DO NOT unplug by pulling on cord. Grasp the plug, not the cord.
- 8** DO NOT handle plug or vacuum cleaner with wet hands.
- 9** DO NOT run the vacuum cleaner over the power cord, close a door on the cord, or pull the cord around sharp corners.
- 10** The use of an extension cord is NOT recommended.

26 Keep the end of the hose and accessory openings away from face and body.

27 Keep cleaning tools and hose suction openings away from hair, face, fingers, uncovered feet, or loose clothing.

USING YOUR VACUUM IN ABOVE-FLOOR MODE

THE BENEFITS OF SUCTION CONTROL

Suction Control is a way for you to adjust suction power when you are using different tools or vacuuming different surfaces. For example, if you are feeling resistance while vacuuming thick carpet or upholstery, opening the suction control to MIN will help reduce your push/pull effort.

STEP 1

1 To clean within short reach, push handle latch down, then lift the handle up off of the wand.

OR Press Release Wand button on pod when you need to clean with a longer reach.

STEP 2

- 2** Attach desired accessory to the wand or handle.

STEP 3

- 3** Located at the base of the top handle, Suction Control offers variable suction based on your needs. Slide toward MIN to decrease suction, and slide toward MAX to increase suction.

USING YOUR VACUUM IN LIFT-AWAY® MODE

⚠ WARNING: Lift-Away mode requires stable footing. Using Lift-Away mode without stable footing may result in personal injury.

💡 TIP: Hold pod in hand when cleaning in Lift-Away mode.

WHAT IS LIFT-AWAY?

Our Lift-Away feature allows you to remove the pod from the floor nozzle to easily clean stairs, above-floor areas with accessories, or hard floors with the hard-floor attachments.

LIFT-AWAY CLEANING

- 1 Press LIFT-AWAY to lift pod off floor nozzle.

2 To remove the wand from the pod, press the Release Wand button. To release the handle only, push the handle latch down and lift handle up.

3 Attach desired cleaning tool to the end of handle or wand.

USING YOUR CADDY

If your vacuum comes with a caddy, use these instructions.

.....

 **TIP:** Use the posts on the caddy to store additional cleaning accessories.

 **TIP:** You can store the Hard Floor Hero™ attachment on board the vacuum or caddy. Fold it until it clicks.

NOTE: The caddy helps transform your Rotator® into a canister vacuum, giving you the freedom to roll the pod along while keeping cleaning tools close by.

NOTE: When using the Hard Floor Hero attachment, ensure the flat portion is facing front.

- 1** Press LIFT-AWAY to lift pod off floor nozzle and place pod onto canister caddy.
- 2** To remove the wand from the pod, press the Release Wand button. To release the handle only, push the handle latch down and lift up.

3 Attach preferred accessory to the wand or handle.

4 To release pod from caddy, press LIFT-AWAY and lift the pod.

(Refer to Maintenance section for more information.)

- Check filters to see if they need cleaning. Follow instructions for rinsing and drying the filters before re-inserting in the vacuum.
- Dust cup may be full; empty dust cup.
- Check hose, hose connections, nozzle, and accessories for blockages; clear blockages if required.
- Remove any string, carpet fibers, or hair that may be wrapped around the brushroll.

Vacuum lifts area rugs.
